

## Medical Specialist MAXILLOFACIAL SURGEON

### DR. C.F. HOOGENDIJK

#### MAXILLO FACIAL & ORAL SURGEON

**Dr Hoogendijk** is a specialist Maxillo-Facial and Oral Surgeon, both medically and dentally qualified. I was the first Maxillo-Facial and Oral Surgeon in South Africa to enter training as a specialist in Maxillofacial Surgery, after qualifying and practicing as a medical practitioner.

I have been in private practice since 2008 and currently hold the position of Senior Specialist in the Department of Maxillo-Facial and Oral Surgery at the University of Pretoria, where I oversee the clinic for Head and Neck Oncology & Pathology. I also serve on the Executive Committee of the South African Association of Maxillo-Facial and Oral Surgeons and work regularly at the Galway University Hospital in Ireland.

I have a special interest in Head and Neck Oncology and Facial Reconstruction, an area where my medical degree and experience is a great advantage, and have a multi-disciplinary approach to the management of these patients, working with a select team of professionals to satisfy the very demanding needs of these patients. I am currently relocating my practice to Wilgers Hospital where all the services can be offered to those patients with head and neck cancer needs, in a single location.

The practice offers services in minor oral surgery (removal of wisdom teeth and placement of implants), head and neck cancer surgery, head

and neck reconstructive surgery, advanced implant reconstructions for patient with severe bone loss of the jaws, orthognathic surgery and temporomandibular joint replacements.

The practice also offers the services of Dr J Fourie (Periodontist with a special interest in oral medicine) and Dr Cules van den Heever (Prosthodontist with a special interest in facial prosthesis). I work closely with these two specialists to obtain optimal results for the head and neck patient.

Suite G25 Mediclinic Kloof Hospital, 511 Jochemus Street, Erasmuskloof, Pretoria
